SUMMARY

I am Muhammad Ahmed, and I am Passionate and Dedicated To My Work. with 2.5 Years Of Experience as a Professional Laravel Web Developer And 6 Months In ReactJS, NextJS, I Have Acquired The Skills To Build Premium Websites.

EXPERIENCE

Learning Alliance:

PHP Laravel Developer - August 2025 - Present

- Led the development of multiple key internal and public-facing portals, including the Lahore PreSchool CMS Portal, Job Portal, and Uniform Ordering Website, utilizing modern frameworks like Next.js and Laravel..
- Streamlined essential business processes for HR and school administration through custom CMS and application management features, focusing on responsive design, clean UI/UX, and secure data handling.

FAST Technologies:

PHP Laravel Developer Jan 2025 - June 2025

- Developed and maintained a Restaurant Management System that significantly improved order management and client billing efficiency.
- Collaborated with cross-functional teams to implement new features and enhance the overall performance and scalability of the core system.

NavicoSoft (PVT) LTD:

PHP Laravel Developer Sep 2023 - Sep 2024

- Designed and developed Mustakshif.com, a user-facing platform enabling product verification (halal/haram) with detailed information.
- Built a comprehensive Reseller Portal for domain registration, management, renewals, and detailed analytics, featuring multi-role access control.

Lime Technologies:

PHP Laravel Developer Jan 2023 - June 2023

- Delivered visually engaging and responsive websites for various clients, including the Lime Training House and Westcombe Technologies, ensuring pixel-perfect cross-device compatibility.
- Implemented key features for an E-Commerce website to create a seamless and optimized shopping experience for end-users.

LANGUAGES

ENGLISH :: Conversaniol URDU :: Fluent

STRENGTHS

Team Player

Collaborated with cross-function teams to acheve 100% project completions.

Problem Solving

Demonstrated ability to identify and resolve complete technical issues efficiently.

SKILLS

PHP	Laravel	RestFul APIs
MySQL	ReactJs	NextJS
Java Script	Html	CSS
BootStrap	Tailwind CSS	Github

PASSIONS

Data Analysis

Always enjoyed practicing my coding skills with various programs.

Outdoor Activities

Balance out my screen time with hiking and canoeing.

EDUCATION

Bachelor In Computer Science

National Collage Of Business Administration & Economic RYK Pakistan

11/2019 - 11/2023

CERTIFICATION

WEB DEVELOPER

HELLO WORLD TECHNOLOGIES

PROJECTS:

Lahore PreSchool CMS Portal:

Role: Full-Stack Developer
Scope: Built a custom CMS portal from scratch to efficiently manage all website content (programs, admissions, events) for the school.

- Developed a user-friendly admin panel/CMS using PHP Laravel to empower non-technical staff to update content dynamically.
- Designed the public-facing portal using React/Next.js with a focus on responsive design and smooth navigation.
- Integrated dynamic content management features to significantly boost parent engagement.
- Technologies: Next.js, React.js, PHP, Laravel, MySQL

Mustakshif.com Website & Admin Panel:

Role: Full-Stack Developer
Scope: Designed and implemented the complete product verification website and its backend CMS for users to verify products as Halal or Haram.

- Developed the core system and Admin Panel using Laravel for robust data management and reporting.
- Implemented front-end design to enable users to scan/search products and view detailed verification information.
- Ensured data integrity and secure presentation of verification results.
- Technologies: Laravel, PHP, MySQL, JavaScript

Learning Alliance Job Portal:

Role: Full-Stack Developer
Scope: Developed a comprehensive Job Portal and its dedicated CMS to streamline the entire recruitment lifecycle for the HR department.

- Built the front-end using Next.js and styled with Tailwind CSS for a clean, modern UI/UX.
- Created a robust back-end Laravel CMS enabling HR to post, manage, and track job listings with ease.
- Implemented secure candidate application and management features for efficient, scalable HR operations.
- Technologies: Next.js, PHP, Laravel, MySQL, GitHub

NavicoSoft Reseller Portal:

Role: Backend/Full-Stack Developer
Scope: Built a high-functionality Reseller Portal for domain registration, management, and reselling operations.

- Developed the entire system in Laravel, featuring multi-role access control for different user levels.
- Implemented complex features for domain renewals, transfers, and real-time management.
- Integrated detailed reporting and analytics to track reseller performance and financial data.
- Technologies: Laravel, PHP, MySQL, AJAX

Uniform Ordering Portal – Learning Alliance:

Role: Full-Stack Developer
Scope: Developed and optimized a user-friendly online portal for parents and students to easily browse, select, and order school uniforms.

- Designed clear navigation with categorization by gender, season, and academic level (e.g., CIE, A-Level, IB PYP/MYP/DP).
- Integrated essential utility sections such as a Size Guide and Washing Instructions for a premium user experience.
- Ensured a fully responsive and modern interface using Bootstrap and Laravel integration.
- Technologies: Bootstrap, Laravel, PHP, MySQL

Restaurant Management System:

Role: Backend/Full-Stack Developer
Scope: Developed the complete admin panel for a Restaurant Management System (e.g., admin-steakhouse.cafescale.app/admin).

- Utilized Laravel to build a robust backend for order tracking, inventory management, and billing.
- Implemented core modules for staff management, sales reporting, and menu configuration.
- Contributed to streamlining kitchen and billing processes, significantly improving client operations efficiency.
- Technologies: Laravel, PHP, MySQL
